Robin Leake, PhD, Research Associate Professor, University of Denver Graduate School of Social Work & Research and Evaluation Director, Butler Institute for Families, University of Denver. Dr. Leake has over 15 years of experience in social science research and program and training evaluation, with an emphasis on implementation research. She has expertise in research design; selection and development of instruments; data collection; analysis and interpretation; utilization-focused reporting, grant-writing, consulting, and project management. Dr. Leake currently directs the evaluation and research team at the Butler Institute for Families at the University of Denver, overseeing the design and implementation of all of all projects, including four HHS-ACF Children’s Bureau Grants, and projects in several states. Dr. Leake is the lead evaluator for NCWWI, and a member of the California Social Work Education Consortium (CalSWEC) Training Evaluation Symposium, the Society for Social Work and Research (SSWR), and the American Evaluation Association (AEA).

Shauna Rienks, PhD, Research Analyst, Butler Institute for Families, University of Denver and a Research Assistant Professor at the Graduate School of Social Work at the University of Denver. Her areas of research expertise include couple and family relationships as they impact development across the lifespan; schools as a context for child and adolescent development; and self and social identity with an emphasis on gender, ethnicity, and culture. Prior to joining Butler, Dr. Rienks worked as researcher on a federally-funded randomized controlled trial evaluating an intervention designed to help couples with low income improve communication, problem solving, coping, and parenting skills.
Anna de Guzman, Research Specialist, Butler Institute for Families, University of Denver. Ms. de Guzman joined the Butler Institute for Families in September 2008. Ms. de Guzman has several years of experience with designing and coordinating research and evaluation projects, including implementing data collection and management protocols, conducting qualitative and quantitative analysis, writing reports and peer-reviewed journal articles, and presenting research findings. Her current work involves coordinating longitudinal evaluation activities, analyzing data, and writing and disseminating findings for NCWWI.

Salvador Armendariz, Research Assistant, Butler Institute for Families, University of Denver. Prior to joining the Butler Institute in 2011, Mr. Armendariz provided direct services and public policy advocacy for families involved in the child welfare system, and worked with nonprofit organizations that serve the homeless, immigrants, and people in human trafficking situations. Salvador is well-versed in collecting, managing, and reporting qualitative and quantitative data using a variety of software, and his current work consists of providing research and evaluation support for NCWWI.
